PROFILE

Quality analyst with five years in the food industry (2020–2025) at shrimp processing plants in Ecuador: from raw-material reception to shipping, with physical, chemical and sensory analysis, process control, documentation and audits. I write the Python tools that make that work faster and more reliable. Based in Curaçao, where I created RutaCuracao, a four-language immigration guide site.

EXPERIENCE

Founder & Developer

Sep 2026 – present

RutaCuracao · Willemstad

- Curaçao immigration guide site in 4 languages, generated with Python from data verified against official sources.
- Automated weekly check of the official website, analysis of 172 immigration rulings, AI chat and cost calculator.
- Serverless functions on Vercel and GitHub Actions automation.

Quality Monitor

Jan 2025 – Jan 2026

Aquagold S.A. · Durán, Ecuador

- Sensory analysis of raw material in the quality lab.
- Built AquaCheck: reviews each lot's reception analysis and sends the release report via WhatsApp.
- Bots (Selenium, PyQt5) that load lab results from Excel into the web portal and the ERP; seven-report sensory analysis system.
- Web apps for thawed-product analysis and resistance testing, with offline mode.

Quality Analyst

Feb 2024 – Nov 2024

Procamaronex

- Quality assurance documentation: daily traceability, internal audits, ISO 9001 and HACCP compliance.
- Reports for internal and external audits and follow-up of non-conformities.

Physical-Chemical Analyst

Nov 2023 – Feb 2024

Langosmar S.A.

- Metabisulfite by Monier-Williams, Kjeldahl and Biofish; raw material evaluation and audit support.

Senior Quality Analyst

Feb 2022 – Aug 2023

Omarsa S.A.

- Quality from reception to finished product; packaging, weight and temperature specifications.
- Shipping audits (containers, documentation, labeling) and staff supervision.

Quality Analyst

Mar 2021 – Jan 2022

Exposynergy

- Physical, sensory and Kjeldahl protein analysis; IQF, value-added and shipping control.

Quality Control Analyst

Jun 2020 – Sep 2020

Industrial Pesquera Santa Priscila

- Freezing control: count, uniformity, weight, temperature, demolding and glazing.

PUBLISHED PROJECTS

SKILLS

Quality & food safety

HACCP, GMP, BRCGS, ISO 9001, ISO 22000, GlobalGAP, ASC lots

Lab methods

Monier-Williams, Kjeldahl, Biofish, iodometric, sensory analysis

Process improvement

5S, Kaizen, PDCA, root cause analysis, KPIs, traceability

Programming

Python (pandas, openpyxl, Selenium, PyQt5, Tkinter), SQLite, JavaScript, TypeScript, Next.js, React, Firebase

Integrations

WhatsApp (Green API), Microsoft Graph, web ERP, Vercel, GitHub Actions

EDUCATION

Agricultural Engineering, Agro-industrial track

Universidad Agraria del Ecuador · 2016–2021 · coursework completed

High school diploma, Chemistry & Biology

Colegio Adolfo H. Simonds

LANGUAGES

Spanish: native · English: intermediate (B1)
